REASONS FOR ALLOWANCE

5. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not render obvious to one ordinarily skilled in the art at the time of applicant's invention nor anticipate the combination of claimed elements including 'for each of the subsets of the previous queries, generating a concept network, each concept network including a plurality of units and a plurality of relationships defined between the units, wherein each unit of each concept network has a frequency weight'; 'constructing a histogram vector for the selected unit, the histogram vector having an element corresponding to each of the concept networks, wherein each element of the histogram vector has a value representative of the frequency weight of the selected unit in the corresponding one of the concept networks; and storing the histogram vector on a data store accessible by a processor' as recited in independent claim 1 and similarly recited in independent claims 15 and 21.

The remaining claims, 2-14, 16-20, 22, and 23, are dependent claims, thus these claims are patently distinct over the art of record for at least the above reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
